## New Order Boosts Texmaco Rail & Engineering by ₹44.04 Crore.

Texmaco Rail & Engineering Limited has been awarded a significant order worth ₹44.04 crore by the Mumbai Railway Vikas Corporation Limited (MRVC). The contract, formalized via a letter dated June 9, 2025, is for crucial infrastructure development on the 3rd and 4th lines of the Central Railway.

Under the terms of the agreement, Texmaco Rail & Engineering will be responsible for the supply, construction, installation, testing, and commissioning of traction transformers, switching stations (SPs), and all associated works. This project is integral to enhancing the capacity and operational efficiency of the Central Railway lines, which are vital arteries for Mumbai's extensive suburban rail network.

The award of this contract underscores Texmaco Rail & Engineering's expertise in delivering complex railway infrastructure projects and its continued contribution to the modernization of India's railway system.
